

## Technical features

**Vebicolla Trap 4/1** is a monitoring device consisting of an adhesive trap. The product consists of:

- house adhesive cardboard with 3 inputs for insects, equipped with double-sided adhesive on the back;
- adhesive;
- pre-smeared attractive gel on the adhesive surface;
- white silicone paper printed in a black color, with instructions for detachment.

The trap can be divided into 4 monitoring micro-stations.

### Measures:

#### Lying trap (4 pcs):

- Length: 256 mm
- Width: 191 mm

#### Mounted trap (1 pc):

- Length: 64 mm
- Width: 65 mm
- Height: 31 mm

## Instructions for use

Place **Vebicolla Trap 4/1** in the following environments:

- In the vicinity of: electrical panels, electrical ducts, dishwashers, sinks, ovens, leavening rooms, platforms, motors, drains, doors and perimeters, hot-humid environments in general and wherever the presence of cockroaches is suspected;
- in poorly lit areas;
- on the floor or on the wall.

It is advisable to number the trap and its relative positioning in the plan of the monitored area in order to facilitate the control of the station during periodic monitoring.

**Theoretical coverage area:** at a distance of 5 m from each other, depending on the presumed degree of infestation.

Recommended monitoring period: all year round, especially in the period between April and October, although insects are always active in a conditioned environment (although they show a seasonality).

### Appearance, color and smell

---

Glued water repellent cardboard.

---

**Recommended check frequency:** weekly. Replace the trap after two months (maximum) or in advance in relation to the conditions of infestation, the presence of dust and water / humidity in the environment.

Use in very dusty or humid environments could reduce the functionality of the product over time.

**Storage conditions :** Store in a cool (at temperatures below 25 ° C) and dry (relative humidity below 55%). In optimal storage conditions, the product in unopened packaging lasts 3 years.

**The product is not considered dangerous in accordance with EC Regulation 1272/2008 (CLP).**
